WHEN TO GO

Canada and Alaska's climate varies tremendously. The climate and daylight hours can be very different in the south compared to the north.

Summer (June – August) brings long, warm, sunny days to most regions. In Alaska, experience 16 to 22 hours of daylight, and midnight sun in the north of the state.

Autumn (September – November) sees temperatures drop and foliage turn all shades of yellow, orange and red. Snow begins to fall from October/November.

Winter (December – February) brings cold weather with temperatures dropping below zero, and Alaska plummeting well below. Cities and towns are geared to challenge the cold surroundings with many having covered walkways and indoor malls to protect from the elements. Snow falls most of winter in many regions. In Alaska, there are only 4 to 6 hours of daylight and complete darkness in the northern parts of the state. The Northern Lights are best viewed in winter.

Spring (March – May) sees days getting longer and temperatures slowly rising. Snow starts to melt away in March/April and wildflowers begin to bloom.

LANGUAGE

French is the official language in Québec City and Montréal however English is widely spoken.

Alaska is 19 hours behind AEST. Daylight Saving Time is observed from March to November when their clocks are turned forward by 1 hour.

VISAS & PASSPORTS

Days 2-3: Sisimiut – Witness Stunning Glaciers, Islands and Fjords

Explore West Greenland's complex coastal waterways that include small communities, glaciers, islands, and fjords against a towering mountain backdrop, with plentiful opportunities for hiking and Zodiac cruising.

Day 4: Ilulissat – Take a Cruise Around Towering Icebergs
Discover the stunning Ilulissat Icefjord, a UNESCO World Heritage Site in Greenland. Fed by the Sermeq Kujalleq glacier, it produces colossal icebergs that drift into the North Atlantic. Walk the scenic boardwalk for breathtaking views, explore the town's museums and cafés, and visit the Icefjord Centre to learn about the region's icy wonders. A truly unforgettable Arctic experience!

Day 5: Western Greenland – Hike the Tundra

Cruise Greenland's west coast by ship and Zodiac, with flexible stops based on wildlife and weather. Learn from expert scientists and Inuit guides who share deep knowledge of the Arctic's flora, fauna, and culture. Whether on land or sea, enjoy quiet moments and rich storytelling that connect you to this extraordinary landscape before crossing Baffin Bay toward Nunavut.

Day 6: At Sea, Davis Strait – Learn from Inuit in their Homeland

Sail toward Nunavut, the expedition team will deepen your understanding of the Arctic. This is an excellent time to enjoy workshops, watch a documentary, or get out on deck.

Graves and ruins like Northumberland House remain as haunting memorials to those lost in the quest for the Northwest Passage.

ALASKA

Travelling in Alaska is like travelling to no other place on earth. Imagine your delight when you spot a bear with a cub or two in tow. That instant when the silence of a misty fjord is shattered by a pod of breaching whales. From wildlife viewing to guided glacier hikes or relaxing aboard a cruise, this is the adventure of a lifetime. With so much to see, here are a few of our top picks.

LAKE HOOD

A hive of activity, Lake Hood is the largest and busiest seaplane base in the world. Located outside of Anchorage, explore their nearby trails or walk around the entire lake which takes around two hours. Lake Hood offers a front row seat to watch seaplanes skim across the water with the base handling almost 200 flights a day in peak season.

KENAI FJORDS

Deep fjords, marine wildlife and colossal icebergs – this glacial wonderland is begging to be explored. Ice and snow cover 60 percent of this amazing place, while moss-covered rainforest provides the perfect contrast. Watch for Humpback whales breaching offshore, sea otters floating, and puffins nesting along rocky cliffs.

ARCTIC CIRCLE

Crossing the imaginary line around the northernmost part of the world takes you to one of the earth's most remote and captivating regions. Here, the sun can shine for up to 24 hours in summer and not even rise in winter. When darkness falls the sky comes alive with the Northern lights painting the night with shimmering waves of colour.

GLACIER BAY NATIONAL PARK

Covering land and sea, Glacier Bay National Park offers amazingly wild scenery. Huge, tidewater glaciers descend into a marine park where whales play, and seals bask on chunks of floating ice. Margerie Glacier is perhaps the most impressive in the area. Hiking trails crisscross the park exploring the snow-capped mountains and temperate rainforest.

PRINCE WILLIAM SOUND

Located close to Valdez, Prince William Sound is home to 150 glaciers and 200 islands. Cruise the sound to see amazing rivers of slowly moving ice, deeply carved fjords and forested islands, or take flight for a bird's eye view from a floatplane. The sound is also known for its abundance of wildlife including sea otters, harbour seals and whales.

DENALI NATIONAL PARK

Amazing and awe-inspiring, Denali is the highest peak in North America. Its surrounding park is six million acres of pristine wilderness that is made for adventurers, offering endless activities from rugged hiking trails to flightseeing. The wildlife viewing is also excellent – see bears, wolves, Dall sheep, caribou and moose.

WILDLIFE & UNIQUE EXPERIENCES

It's hard to get more wildly different than Alaska! Imagine seeing Brown bears snatching salmon from a stream or Humpback whales doing acrobatics. One of the best ways to experience incredible wildlife is on an extended tour. Local, expert guides know the best places and the best times to view amazing wildlife, so sit back, relax and have your camera at the ready!

Travel into the heart of Alaska, visit Denali National Park and Preserve, the Brooks Range and remote communities who call the Arctic Circle home. Alaska is also a great place to see the phenomenal spectacle of the Northern Lights, something not to be missed.

PRICES & CONDITIONS

This brochure was produced on 29 August 2025. Unless otherwise stated, prices are in Australian dollars and include GST where applicable. Exchange rates used when pricing this brochure are as at 19 August 2025. All prices are subject to availability, subject to change and can be withdrawn or varied without notice. Prices are to be used as a guide only. Accommodation prices are based on the lowest room category in low season. All other prices are based on travel in low season. Some prices are based on dynamic rates, which means the price may be higher or lower than the advertised price if the price has been varied by the supplier after this brochure was printed. Price changes may occur by reason of matters outside our control which increase the cost of the Product or Service. Such factors include (without limitation) adverse currency fluctuations, fuel surcharges, or increases to taxes. Surcharges and minimum stays may apply due to demand, Christmas and New Year's Eve, school and public holidays, special events and other circumstances. All prices are the lowest available prices at the time of print and are a guide only. Please check all prices, availability, fees, conditions and information with your travel agent before booking.

If we must change any part of your booking for reasons beyond our control, for example, an Accommodation Supplier overbooks accommodation, or if there is an increase in taxes or Supplier charges, we will notify you. If any such changes result in your holiday costing more or otherwise being materially different from that originally booked, you may cancel the booking and we will refund any monies already paid less any charges levied by Suppliers.

PRICES DO NOT INCLUDE

Anything not specifically indicated as being an inclusion.

OMISSIONS & ERRORS

While every effort is made to ensure the accuracy and currency of the information in the brochures, errors or omissions may occur. All errors and omissions identified post the date of publication are notified to our retail partners to advise you.
